

SFB 649

Guest Researcher Program

In line with its Guest Researcher Program the SFB 649 "Economic Risk" is offering up to five short terms stays for young researchers in 2006.

Assistance is given in the form of financial support whose aim is the furthering of an empirical or quantitative research project as a guest of the SFB 649 in Berlin. Travel costs, lodgings and a per diem for a stay ranging from two weeks to three months will be provided.

Guest researchers are expected to utilize data and other resources provided by the SFB 649's Financial and Economic Data Center or to develop algorithms or data to be distributed by the FEDC. Support is based on the completion of at least one paper to be distributed as an SFB 649 discussion paper within a maximum of six months after the visit.

Applicants should be no more than 40 years old and submit a Curriculum Vitae as well as a short proposal (no more than two pages). The proposal should state explicitly the planned time frame, the FEDC data to be used for the research project as well as other required support and resources.

Applications no later than the 1 April 2006 to:

Humboldt-Universität zu Berlin
Wirtschaftswissenschaftliche Fakultät
Sonderforschungsbereich 649
Spandauer Str. 1
10178 Berlin
